

# WISH YOU WERE HERE

Visit Soon...We're Waiting for YOU!  
at the DARE TO COMPARE Commercial Tour Headquarters

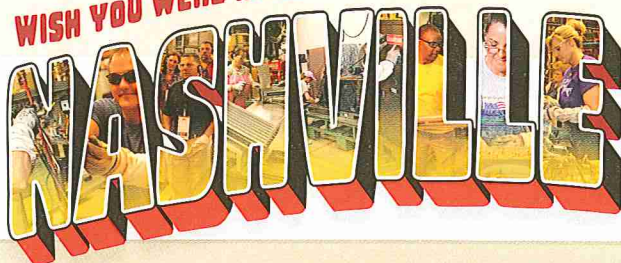

## Your DARE TO COMPARE Commercial Tour Headquarters!

**"I was impressed. This is a great organization with outstanding products."**

➔ **NASHVILLE** With live music of every genre being performed any night of the week, more than 180 recording studios, and some 5,000 working musicians, Nashville is known the world over as Music City. Music put Nashville on the map, but it's not the city's own claim to fame. Nashville was ranked among the top 50 'adventure towns' in the U.S. by National Geographic. With over 10,500 acres of urban parks, combined with a hot dining, entertainment, and professional sports scene, Nashville awaits all Dare to Compare Commercial Tour participants!

# WISH YOU WERE HERE

## Join our DARE TO COMPARE Tour!

### To All DTC Tour Participants:

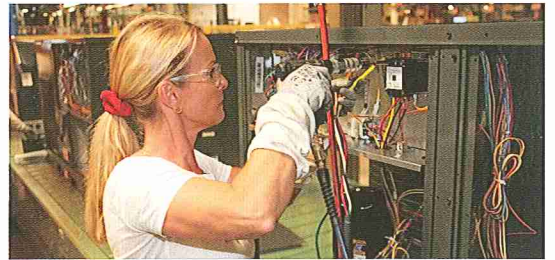

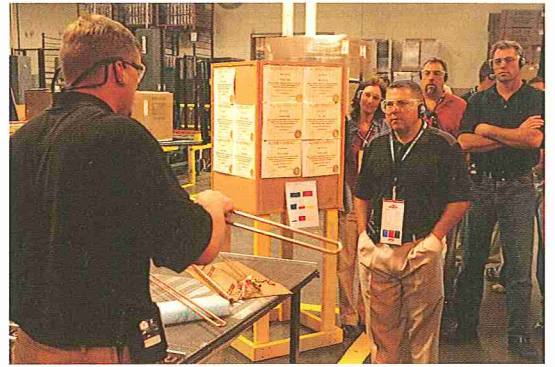

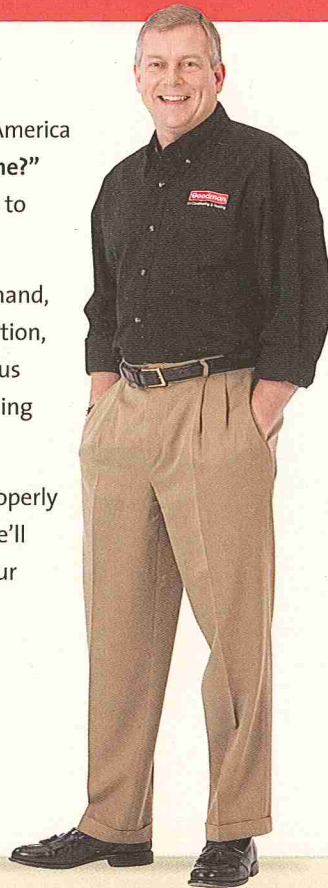

Every year more and more HVAC dealers across North America ask the same question, "What can Goodman do for me?" I believe that the best way to answer that question is to participate in a DARE TO COMPARE Tour.

During your DARE TO COMPARE Tour you'll view, firsthand, our light commercial manufacturing facilities. In addition, you'll have ample opportunities to talk with numerous members of our organization regarding our outstanding product lines and marketing support programs.

At the conclusion of your tour I hope that we have properly demonstrated that as your HVAC business partner, we'll strive to earn your business every day. And during your stay, please ask questions and challenge us.

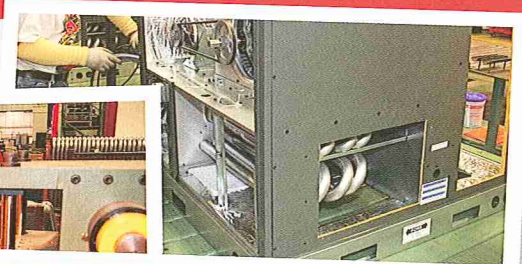

I look forward to meeting you during your tour.

**Dave Swift**  
President and CEO, Goodman Global, Inc.

## Here's a sampling of the light commercial products tour highlights

- ➔ Watch 3-20 ton light commercial products assembled in quality-driven manufacturing facilities
- ➔ Watch how an incredibly durable dual-diameter, tubular heat exchanger is created
- ➔ See on-line quality testing, component and unit final testing, run testing and more testing performed on all product lines
- ➔ Meet the people that support a leading HVAC manufacturer
- ➔ Discover the competitive edge you'll experience with the Goodman brand of light commercial HVAC equipment
